

Focusing On The Big Picture With BoardDocs

Kettle Moraine School District, WI

Wisconsin School District uses WASB BoardDocs Pro to efficiently manage goals and policies.

BoardDocs Understood Our Needs

Kettle Moraine's Superintendent and Board of Education knew ten years ago a board management solution was the right fit for them. With goals of using fewer resources and wanting to be more efficient and transparent, the District began subscribing to WASB BoardDocs Pro.

The District reviewed several board management solutions but liked how BoardDocs understood the needs of the education industry. "WASB BoardDocs Pro was the most logical and intuitive program for our goals and purposes," explained Debbie Carrasco-Zanini, Assistant to the Superintendent.

Change Was Easy

"Change can be hard, even scary, but with BoardDocs' training and customer support we easily moved to the solution," stated Carrasco-Zanini.

On a personal level, Carrasco-Zanini loves the time efficiencies she experiences and projects a 60-70% board-related time savings now that she uses WASB BoardDocs Pro. She can instantaneously prepare for meetings by quickly setting up meeting templates.

Robust Features Support Rich Content

The district's tech-savvy board members like being able to use any device to access BoardDocs. "With WASB BoardDocs Pro, the board gets to focus on the bigger picture with the library, policies and goal tracking," said Carrasco-Zanini. The solution allows board members to have access to district goals anytime and track their progress.

Adding to the savings, the district no longer utilizes paper copies of policies. Now, policies are hosted in WASB BoardDocs Pro where the most current version is always available to the administration and the public. Revisions and updates are also tracked in BoardDocs.

The Library feature allows the district to be more transparent. The public can access documents in the library to view the process flow in chronological order. "WASB BoardDocs Pro is our one-stop shop for important information,"
